3.1 Quality Policy

Our company, in a continuous improvement effort, has established the following key points in its Quality policy:

The goal of **BELMEK, S.L.L.** is the machining of components according to drawings, attaining a degree of **Competitiveness** that will guarantee the **Profitability** of the Company.

To this aim, we assume that it is essential to **Satisfy all the interested parties** and to comply with their highest expectations and needs.

For the achievement of these objectives, we have placed **Quality** as a **key element** for **appropriate business management**.

BELMEK, S.L.L. is committed to **complying with legal and regulatory requirements**, as well as with **CONTINUOUS IMPROVEMENT** of the whole organization.

We acknowledge that **People** are our most valuable asset, and that their work is the key to achieve a quality service.

Therefore, we wish to integrate, involve and work as a team with all the personnel of **BELMEK, S.L.L.** as well as with **Suppliers and Customers**, in this Quality Project.

We consider **Training** and **Qualification** of personnel as a primary operational instrument for Quality.

We have the **material resources and technical documentation** needed for the work we do, compatible with the required technology and levels of quality, with the specific commitment of Management to provide these elements.

For all the above, we have documented and implemented a **Quality System** compliant with the requirements of UNE-EN-ISO 9001:2015 standard, focused on **Continuous Improvement**, which is **known, understood and applied** by each and every one of the workforces in **BELMEK, S.L.L.**

Objectives will be established that will be **reviewed annually**, together with the Quality Policy.

The achievement of these objectives is the responsibility of everyone. This requires the participation and collaboration of all **BELMEK, S.L.L.** personnel, for which purpose, the Company Management communicates this Quality Policy.
